Sector 130, Noida | +91- 8941055412 | chaitanyarastogi23@gmail.com | linkedin.com/in/rastogichaitanya

SUMMARY

Professional in Data Science and Analytics recently graduated from IIT Madras with a Bachelor's degree in Data Science and Programming. Proficient in Python, SQL, and Power BI, with practical knowledge of automation, data visualization, and machine learning. I currently work at Conduent.

EXPERIENCE

Conduent, Noida

Oct 2024 - Present

Transaction Processing Associate (Data & Reporting)

- Prepared, sorted, and organized data to facilitate reporting.
- Created and maintained Power BI dashboards for visualizing and tracking performance.
- Reduced manual labor by automating repetitive tasks in Excel.
- Generated count reports and timesheets

PROJECT

Uyghur Speech Recognition (Kaggle Competition) – Hugging Face, Whisper, PyTorch

- Fine-tuned ASR Whisper models for low-resource language recognition, mainly focused on preprocessing and augmentation.

Vegetable Vendor Sales Forecasting – Python, Excel, Scikit-Learn

- Trained machine learning models to predict vendor sales by using Two Months of Sales and Purchase data, examined seasonal trends, and offered suggestions for inventory optimization.

Taxi Fare Prediction Challenge (Kaggle) – Regression, Scikit-Learn

- Applied regression models and performed hyperparameter tuning, Used Features like location-based and Time, obtained a score of 0.94.

EDUCATION

B.Sc. in Data Science and Programming – IIT Madras

2022 – 2025

Bachelor of Science – MJP University

2019 – 2022

SKILLS

- Programming: Python, SQL, C, Java.
- Libraries: Pandas, NumPy, Scikit-Learn, PyTorch, Hugging Face
- Analytics & Visualization: Power BI, Matplotlib, Seaborn, Microsoft Excel (Pivot Tables, Macros)
- Machine Learning: Regression, Classification, Clustering, Feature Engineering, Model Evaluation
- Deep Learning & NLP: CNNs, RNNs, Transformers, Fine-tuning
- Tools & Platforms: Git, Jupyter Notebook, Replit, Visual Studio
